SUMMARY

I am a **Java Full Stack Developer** with **4+ years** of experience in building and deploying scalable enterprise applications. My expertise includes **Java 8+, Spring Boot, Microservices, REST APIs**, and **ORM frameworks** like **Hibernate/JPA**. On the frontend, I work with **Angular 17, JavaScript (ES6+), HTML5,** and **CSS3**. I have strong experience with databases such as **MySQL, PostgreSQL,** and **MongoDB**. I am also skilled in **Docker, Kubernetes,** and **CI/CD** pipelines with **Jenkins**. Having worked in **Agile/Scrum** teams, I am comfortable with production support and cross-functional collaboration. I adapt quickly, and my strengths are debugging, optimization, and solving complex technical problems.

EXPERIENCE

Total Work Experience: 4+ years

Company Name: Codereachsoft Pvt Ltd	**July 2021 - Present**
Java Full Stack Developer	PUNE, MH(INDIA)

- Developed and maintained web applications using **Java, Spring Boot, and Angular**, improving user experience and performance.
- Designed and integrated **RESTful APIs** for seamless front-end and back-end communication, enhancing data retrieval speed.
- Performed **root cause analysis** for critical incidents and implemented preventive solutions to improve system stability.
- Collaborated with **development and QA teams** to diagnose and resolve defects, ensuring high software quality.
- Optimized application performance by analyzing **system logs**, identifying bottlenecks, and applying enhancements.
- Utilized **JIRA** for issue tracking, task assignment, and coordination with cross-functional teams.
- Conducted **system maintenance, updates, and deployments** in compliance with organizational standards.
- Supported production and ensured **timely resolution of support tickets** to maintain business continuity.

SKILLS

- Java 17	- Angular	- Microservices	- JIRA
- Git/Github	- REST APIs	- Spring Boot	- Database Management

- SQL/MySQL	- Spring Framework		

PROJECTS

1.Project Title: SmartRetail Inventory Management System

Client: Reliance Retail Pvt. Ltd**.**

Duration: Nov 2023 – Present

Role: Java Full Stack Developer

Environment/Technology: Java 17, Spring Boot, Angular, MySQL, Microservices, Docker, Jenkins

Project Description:

Worked on a retail inventory system that helps manage products, orders and suppliers in real time. The goal was to streamline the supply chain and improve stock visibility across multiple stores.

Responsibilities:

• Designed microservices for product, supplier and order modules using Spring Boot.
• Integrated Kafka for inter-service communication and real-time updates.
• Built responsive dashboards and UI components using Angular for live stock tracking.
• Deployed applications using Docker and set up automated builds with Jenkins.
• Worked with business and QA teams to ensure timely and smooth delivery.

2.Project Title: Aditya Birla Finance Ltd (ABFL)

Client: Aditya Birla Capital

Duration: Aug 2021 – Oct 2023

Role: Java Full Stack Developer

Environment/Technology: Java, Spring Boot, Spring Security, JWT, React.js, MySQL, JIRA

Project Description:

A Fintech Loan Management System that automates loan origination, customer onboarding, document verification, and loan disbursement for multiple loan types such as Business Loan, Personal Loan, and Micro LAP.

Responsibilities:

Developed RESTful APIs and integrated third-party services (PAN NSDL, SMS Gateway, Bureau Check).

Participated in requirement gathering, analysis, and system design.

Worked on bug fixing, production support, and performance tuning.

Collaborated with QA and DevOps teams to ensure CI/CD integration.

Conducted RCA (Root Cause Analysis) for incidents and implemented preventive measures.

TECHNICAL SKILLS

Backend Development: Java, Spring, Spring Boot, JPA, OAuth2, RESTful APIs, Microservices, Hibernate, JPA, Kafka

Frontend Technologies: Angular, JavaScript (ES6+), Bootstrap, HTML5, CSS3, Prime React, ReactStrap

Database Management: MySQL, Redis, MongoDB, Oracle, PostgreSQL

Testing & Automation: Postman, Junit, Apache JMeter, TestNG, Mockito

API Lifecycle & Integration: Kong API Gateway, Swagger/OpenAPI, RESTful Standards, OAuth2

DevOps & Build Tools: Docker, Kubernetes, Jenkins, Maven, Git, GitHub, GitLab CI/CD, Bamboo, Gradle

Monitoring & Cloud: ELK Stack, Prometheus, AWS (EC2, S3, RDS), Azure IoT Hub

Agile Methodologies: Scrum, Agile Development, Sprint Planning

Other: Data Structures & Algorithms, IntelliJ, Eclipse, VS Code, SonarQube, GitHub Actions

Education

Savitribai Phule Pune University , Pune 2021

BE

SOFT SKILLS

- Communication | Problem-Solving | Analytical Thinking | Adaptability | Teamwork
