VIJAY KRISHNAN K

Senior Data Engineer

+91 8056865641 krishnanvj0809@gmail.com Chennai, India

SUMMARY

Senior Data Engineer with 9+ years of experience building scalable data platforms and distributed data pipelines across AWS and cloud-native ecosystems. Expertise in PySpark, Apache Spark, Snowflake, and Databricks for **developing high-performance batch and real-time ETL/ELT pipelines and migrating applications from on-prem to cloud**. Strong experience in designing data architectures and optimizing large-scale analytics workloads. Proven ability to improve system performance, ensure data reliability, and deliver business-critical insights using Agile methodologies

EXPERIENCE

Technical Lead

Sopra Steria | GEODIS

12/2025 - Present

- Developed PySpark ETL pipelines using Databricks Jobs to ingest data from Databricks Volumes (mapped to Azure Blob Storage) into Unity Catalog-managed Apache Iceberg tables.
- Orchestrated end-to-end data pipelines using Astronomer Airflow, automating the execution of Databricks Jobs with monitoring, retries, and dependency management.
- Implemented batch data workflows with PySpark, enabling migration from Delta Lake to Apache Iceberg. Utilized Unity Catalog for centralized governance, schema management, and secure access to enterprise data.

Technical Lead

Sopra Steria | NatWest

12/2023 - 12/2025

- Individually Assigned role to a NatWest and Engineered high-throughput ETL pipelines processing millions of fraud records daily using PySpark and Snow park
- Built real-time data ingestion pipelines from AWS S3 and Kafka into Snowflake, enabling near real-time fraud detection
- Orchestrated workflows using Apache Airflow, improving pipeline reliability and reducing failures by ~30%
- Designed secure cross-domain data sharing solutions in Snowflake for multiple business units
- Optimized Snowflake queries and clustering strategies, improving analytics performance by ~35%

Module Lead

Sopra Steria | EDM

11/2021 - 06/2023

- Leading a team of 4-5 QA and Developers delivering the following in FY23
- Developed AWS Glue-based ETL pipelines to process large-scale financial datasets with high data accuracy for own Sopra Steria Product called **Ethical Debt Management**
- Automated batch ingestion workflows, reducing manual intervention and improving pipeline efficiency
- Designed relational data models and SQL procedures supporting Tableau dashboards used by business stakeholders
- Implemented data validation frameworks, improving data quality and reducing inconsistencies by ~20%

Software Developer

Tata Consultancy Services | Client: Nielsen

08/2017 - 10/2021

- Design and Development of ONCE STB Application and roles include Rewrite of existing system to Spark-based system using Java/Spark and Scala/Spark
- Migrated legacy analytics platforms to AWS, improving scalability and reducing infrastructure costs. Development of complex calculations using Java/Spark to meet or beat the SLAs already set by legacy systems
- Built distributed Spark pipelines using Java Spark and SQL to process large-scale media datasets
- Led migration of enterprise data from Netezza to AWS cloud ecosystem, enabling scalable data processing
- Developed optimized Hive-to-S3 Parquet pipelines, reducing storage costs and improving query performance by ~30%
- Automated end-to-end workflows using Apache Airflow, ensuring reliable and scheduled data processing

EDUCATION

Bachelor of Engineering (B.E)

SRM Easwari Engineering College, Chennai

SKILLS

Programming

SQL Java Scala Python

Big Data

Apache Spark PySpark Spark SQL Snowpark

Cloud

AWS S3 Glue Lambda EC2 EMR Databricks Azure

Data Warehousing

Snowflake Redshift Oracle MySQL Netezza MangoDB

Streaming

Apache Kafka

Orchestration

Apache Airflow AutoSys

Tools

Eclipse Git GitHub PyCharm

Operating Systems

Linux Unix Windows

AWARDS

Team Excellence Award

Award from client Natwest for exceptional efforts in delivering projects on time and with outstanding quality

Spot team award

Award when I'm working in EDM projects

TCS Star of the Month

Award for multiple appreciations from the client's higher management

TCS on the Spot Award

Award from client management
